V. That all Annual Subscribers of one guinea and upwards, and all Donors of ten guineas and upwards shall be Governors.

VI. That there shall be an Annual General Meeting of the Governors on such day as the Committee may appoint, to be convened by advertisement at least fourteen days previously, for the purpose of receiving the report of the Committee, passing the accounts, appointing the Officers and Committee for the ensuing year, and for transacting the general business of the Institution.

VII. That at such Annual General Meeting, Subscribers of one guinea a year, and Donors of ten guineas, shall be

VIII. That the Committee shall meet once in every month, or oftener if necessary, and that three shall form a quorum.

IX. That the Committee shall have power to appoint Trustees; to make, alter, or repeal bye-laws, rules, and regulations for the admission, employment, and removal of the pupils; appoint and remove all teachers and servants, and pay such salaries, wages, and allowances as they shall think reasonable; they shall also have power to appoint any of the Governors to be Visitors of the Institution, and shall also have the management and application of the property, funds, yearly and other income.

XVI. That no alteration of these laws shall be made at any Annual or Special General Meeting without the approbation of a majority, consisting of at least two-thirds of the Governors then present; nor without notice of the intention to propose such alterations having been given to the Committee one month previously, and that it shall be announced by them in the advertisement calling such Annual or Special Meeting.

## PREVENTION OF BLINDNESS.

### ADVICE TO MOTHERS AND NURSES.

---

It cannot be too widely made known that many persons are blinded every year by diseases which are preventable and curable. The most destructive of these diseases is the *Ophthalmia of new-born infants*. Over one-third\* of the present Inmates of this Institution owe their blindness to this cause, and the same high proportion has been found in other schools for the Blind. It is not too much to say that in nearly all these cases the eyesight might have been saved by proper treatment at the commencement of the disease. The disaster usually arises through ignorance of the danger and consequent delay in obtaining medical treatment.

This form of Ophthalmia is due to the infection of the baby's eyes with irritating matter during or very soon after birth. About the third day after birth—sometimes earlier, sometimes a little later—the child's eyelids become red and swollen, and begin to discharge yellow matter. *This is the sign of danger*. Skilled medical advice should be obtained without a day's delay, and in the meantime the baby's eyes should be thoroughly and frequently cleansed in the following way :—

Place the baby on its back, with a cloth under its head ; separate the eyelids gently with the thumb and finger, and with a bit of soft, clean rag drip warm water freely into the eyes, so as to wash away the matter as thoroughly as possible. Work the lids about gently over the eyes so as to bring the

\* In 1910 the percentage was 33·8.

matter out from underneath them, and do not be content till you have got it all away. Repeat this in a bad case, at least every hour through the day, and every two hours through the night. In addition to this the drops or solution ordered by the medical man must be regularly and carefully used according to his directions. If this treatment be begun at once the eyes will probably be out of danger in a few days. If it be neglected they may be permanently blinded within a fortnight.

*Caution.*—The discharge is very catching. Be most careful that no particle of it finds its way to your own eyes. Burn every bit of rag after you have used it, and wash your hands thoroughly.

---

In Maternity Hospitals and similar Institutions for the help of Women of the poorer classes, this disease was formerly very common. It has now been almost banished from such Institutions by the routine practice of dropping into the eyes of every infant, immediately after birth, one drop of a 2 per cent. solution of nitrate of silver. The non-infected infants are not injured in any way thereby, while the infected ones are saved from possible disaster. The general adoption of this practice, especially among the poorer classes, would undoubtedly diminish the number of persons blinded from birth to a very considerable extent.

*Ophthalmic Surgeon to the Institution.*

## SIXTY-THIRD ANNUAL REPORT.

---

**Y**OUR Committee have pleasure in presenting to the Governors their Report for the year ended 31st March, 1910.

**Royal Patronage.** As announced by the Chairman of your Committee at the Annual Meeting last year, King Edward VII. and Queen Alexandra graciously conferred their Patronage upon your Institution, on the occasion of their visit to the City. The new title of the main Institution at Edgbaston is "The Birmingham Royal Institution for the Blind," and that of the Kindergarten Branch at Harborne "The Queen Alexandra Kindergarten Branch."

**Death of King Edward VII.** At the time of writing this Report, the nation mourns the loss of their well-loved Sovereign, King Edward, and your Committee take this opportunity of recording their profound regret at the loss sustained by his death, and of expressing sincere sympathy with the Royal Family in their heavy bereavement. They further desire to express to the King their devotion to His Crown and Person, and their earnest hope that His Majesty may long be spared to reign over His people.

**Numbers Benefited.** No less than 811 blind persons have received direct benefit from the Institution during the year, compared with 769 last year, as the following summary will

show :—

**Health.** The health of the pupils at the Royal Institution has been extremely satisfactory, but your Committee deeply regret to record the death of one of the girls, Kitty Spracklin, who succumbed to heart failure on March 23rd. It was known that this pupil suffered from a weak heart, and she had therefore been receiving special medical attention and nursing.

At the Kindergarten Branch there was an outbreak of mumps during the Autumn, and in December one pupil was removed in consequence of scarlet fever. Your Committee regret to report that an outbreak of ringworm occurred among the pupils of this Branch in March, but they are very hopeful that the efforts used to stamp out the contagion—by means of X-Ray treatment—will be successful. The general health of the pupils at the Queen Alexandra Kindergarten Branch has been very satisfactory.

**Education and Training.** The high standard of training given to the 40 pupils at the Kindergarten Branch is well maintained, and every possible opportunity is afforded for each child to progress. The pupils' weaknesses as well as attainments are carefully considered. Many of them at the time

of admission are quite incapable of even fastening their boot-laces or buttons, and in nearly every instance cleanly habits have to be taught. The elder pupils each have a small garden, which they love to dig and water.

At the Royal Institution, where the accommodation is for 66 males and 50 females, instruction is given in the ordinary school subjects, and also in technical work, for which purpose the workshops are so admirably adapted. Girls when admitted if under 14 years of age are taught to use their fingers by knitting, and boys if under 14 years of age are drafted into the carpenter's shop for instruction in woodwork. At the beginning of each term the attainments of all pupils over the age of 14 years are reviewed by the General Superintendent and Secretary, the Head Teachers, and the Heads of the various Training Departments. Suggestions as to the career of these pupils are most carefully considered and when possible a definite decision arrived at as to the future of each child; thenceforth a half-time system is arranged to enable the pupils to receive technical training, and this continues until the age of 16 years is attained, when the half-time system is changed for that of whole-time. The pupils are trained in the following trades or professions:—

- Basket Making and Repairing.
- Brush Making                                 "
- Mat Making   "
- Chair Seating.
- Knitting (Hand and Machine).
- Piano Tuning and Repairing.
- Boot Making and Repairing.
- Typewriting and Shorthand.
- Music.

The elementary education given to the boys and girls of the Royal Institution continues to show results which supply abundant evidence of efficient teaching.

A systematic course of gymnastic instruction has been prepared for the boys, and the Syllabus of Physical Exercises for Public Elementary Schools issued by the Board of Education last year, has been adopted.

A Time Table and a Syllabus of the School Work of each Department is printed in a separate document, and copies may be had on application to the Secretary.

The Birmingham Education Committee have enquired of your Committee as to the possibility of educating children at the Institution as day pupils, and, subject to the

approval of the Board of Education, it is proposed to receive about 30 Birmingham children as day pupils for a period of twelve months as an experiment.

The Music Department continues to flourish under the Head Music Master, Mr. **Music.** A. R. Gaul, Mus. Bac., and his Staff. Several pupils took the Examinations in Pianoforte Playing held in July and December under the auspices of The Incorporated Society of Musicians. Fifteen pupils were examined, of which number fourteen were successful in passing, as shown below :—

Your Committee continue to find employment in their workshops, wherever it is possible, for pupils who have been trained at the Institution.

The eighteen pupils employed (see Nos. 2, 3 and 4), earn on an average 16/6 per week for males and 11/1 per week for females.

The Midland Counties' Union of Societies for the Blind, which was inaugurated in 1908, is doing good work. The objects of the Union are as follow :—

- (a) To compile a register of the blind residing in the Counties belonging to the Union.
- (b) To promote such intercourse among existing Agencies and individuals interested in the welfare of the blind, as may lead to the organisation, co-ordination and extension of work on their behalf.
- (c) To form Societies in districts where none exist.
- (d) To encourage the "After-care" of pupils leaving Institutions, and to promote their employment.
- (e) To visit and care for the sick, aged and helpless.

His Grace the Duke of Portland, K.G., has kindly consented to become President of the Union. The Chairman of your General Committee, and the General Superintendent and Secretary of the Royal Institution, have been appointed on the Executive.

**Visit of  
Kindergarten  
Pupils to**

**Weston-super-Mare.**

In April, 1909, the pupils of the Queen Alexandra Kindergarten Branch were taken to Weston-super-Mare, where they stayed for a week. The whole of the expenses in connection with this holiday were met by donations collected by the Matron, Miss Ferris.

Arrangements were made for a special corridor coach to convey the children from Harborne Station to Weston without a change. Needless to say the children were extremely delighted, and many object lessons were given to them on the journey and during their visit.

Several residents of the district entertained the party in various ways, and their kindness will be long remembered by the pupils and the staff.

The undertaking was a very responsible one, and the Matron and her staff are to be congratulated on the excellent manner in which the whole of the arrangements were organised and carried out.

**Boarding-out  
of Pupils.**

There were eight pupils of the Royal Institution and four of the Kindergarten Branch boarded-out at Midsummer, and nine and two respectively at Christmas, in consequence of their homes being considered unsatisfactory.

**Gardner's Trust  
for the Blind.**

The Gardner Scholarships are once again gratefully acknowledged. Very deserving pupils have been assisted by these scholarships with gratifying results.

**Entertainments.**

The Annual and Monthly Concerts and Entertainments continue to be well attended, and are the means of bringing before the public many features of the work that is being carried on at the Institution. Your Committee heartily welcome at these gatherings the presence of all those interested in the work among the Blind. During the

year thousands of visitors attended these entertainments, and their practical sympathy was shown by the purchases made.

The Christmas Entertainments were a great success, and were much enjoyed by pupils and visitors alike.

**The Richard Middlemore Trust.** Eighteen beneficiaries were supplied with machines, tools, materials, &c., in accordance with the Trust Deed. The total amount expended was £31 14s. 4d.

This Fund is most useful in assisting blind pupils who are not about to be employed at the Institution to make a start in life after their training has been completed.

**Adult Blind.** The adult blind in the city and district continue to be visited by the two Teachers engaged for this purpose. The records kept show that 400 were visited during the year, as compared with 405 for the previous year. There have been 30 deaths.

The following pensions were awarded during the year :

Hetherington's Charity (£10 each)	...	3
Painters' Charity (£10 each)	...	10
Government Old Age (£13 each)	...	6
Henry Stainsby Fund (£6 10s. each)	...	2

In addition, the Gardner's Trust have made generous grants to several on our adult blind list. One pension was increased from £6 to £10 per annum by the Society for granting pensions to the poor adult blind, and one blind person received a pension of £12 per annum through a firm of London solicitors.

Your Committee desire to record their grateful thanks to the several Societies responsible for the awarding of these pensions, which have been most thoroughly appreciated by the recipients.

The Tea Party and Entertainment held in July at the Royal Institution were much enjoyed by a large number of the adult blind and their guides. It is hoped to repeat the the invitation in July, 1910.

The objects of the Committee in regard to the Adult Blind Branch are :—

1. To ascertain all the information possible as to the blind in Birmingham and district.
2. To teach all to read who are able and willing to learn, and to lend books when this has been accomplished.
3. To visit others and to read to them.
4. To assist urgent and deserving cases of need.
5. To distribute gifts of clothing, especially winter garments.

Sixty new cases have been discovered during the year. The following are typical instances of those found by the visitors:—

“S. R.”—Was a gardener and coachman before losing his sight twenty-three years ago. Visited and taught to read. Obtained two pensions for him. Has had Tea Agency for three years. He is now eighty-four years old, and takes great pleasure in reading books in Moon type. Most grateful for all that has been done for him.

“J. W.”—Lost sight two years ago. Much depressed when first visited. Persuaded to learn to read, and found books a great comfort to him. Had been an ironworker. Last November found to be suffering with cancer. Died March, 1910. He was most grateful for all that had been done for him through the Adult Blind Branch, and, an hour before he died, left a message to that effect for the visitor.

“U. V.”—A woman eighty years of age—blind eighteen months. Taught Moon’s alphabet in one lesson. When visited a second time, read to the visitor several pages of a small book. Has frequently expressed gratitude, and said what a comfort reading has been to her. A few weeks ago had a stroke which took away the use of her right hand. It is very touching to see her still trying to read with the left hand.

### **Henry Stainsby Pension Fund for the Blind.**

In January last two pensions were awarded. The successful candidates were single women who had been trained at the Institution but were too ill to work. One lives at Polesworth and the other at Stratford-on-Avon. About twenty applications were considered, but owing to the funds at the disposal of the Committee being so small, it was impossible to award more than two pensions of the annual value of £6 10s. each.

The need of a Pension Fund in connection with the Institution has been a long-felt want, and your Committee

take this opportunity of appealing to the generosity of the public to support the Henry Stainsby Pension Fund for the Blind. The Scheme and Forms of Application are printed in separate documents, copies of which may be had on application to the Secretary.

### **Augmentation of Workers' Wages.**

Your Committee have given very careful and anxious consideration to this subject. Some years ago a Fund was inaugurated for the express purpose of augmenting the wages of blind workers employed in the shops at the Institution, because they were unable to earn a living wage at their respective trades when paid at trade rates. The Fund is collected principally from among the working classes, supplemented in many instances by subscriptions and donations from employers. So many demands for employment of blind workers have had to be met that the number of workers has recently considerably increased, and a greater claim has been made upon the Fund, which, unfortunately, has not increased in proportion to the number of new workers. In September, 1909, your Committee appointed a special Sub-Committee to deal with the whole question of the Augmentation of Workers' Wages, as it was felt that the time had arrived for a revision to take place in the then existing Schemes. Enquiries were made as to the conditions of employment at the largest Institutions for the Blind, and several Schemes were carefully considered before one was finally adopted. Nine Meetings of this special Sub-Committee were held, the day workers were consulted, and were also asked to arrange for a Deputation from each department to wait upon the Committee. The results of the deliberations of your Committee were embodied in a Scheme which was approved by the General Committee on February 7th, 1910.

Your Committee desire to again place on record their appreciation of the practical sympathy exhibited from time to time by the contributors to the Fund. During the past year the amount collected was £1,171 15s. od., and the amount distributed to the workers, in addition to their trade earnings, was £1,493 os. 11d. The support given to the Fund by the contributors is again most gratefully acknowledged ; but for this generous help, the wages of the majority of the blind would be quite inadequate for their needs.

At the time of the revision of the Scheme of Augmentation of Wages for Sick Club for Day Workers, your Committee were of opinion that it was very desirable for a Blind Workers. Sick Club to be established, and, after careful consideration, Rules and Regulations were adopted, which came into operation on April 1st, 1910.

The subscriptions to the General Fund again show a serious decrease, amounting this year to £30, and the amounts to the Kindergarten Branch and the Adult Blind Branch are slightly less than last year. Seventeen subscribers have been lost by death; others have discontinued their support either finally or for a time, and the amount in arrears at the close of the Financial Year is larger than in any former year.

Your Committee, therefore, again earnestly appeal for new subscriptions to the General Fund, the Queen Alexandra Kindergarten Branch and the Adult Blind Branch.

The Donations received during the year, from all sources, amounted to £1,622 7s. 3d.

The amount paid to the blind employed by the Committee, in regard to salaries, wages and allowances, was £5,842, being an increase of £734 over any past year.

Your Committee desire to record their grateful thanks for the sum of £1,207 10s. 2d. which has been received in legacies during the year.

The Sales in the Trading Department reached the amount of £12,378, shewing an increase of £1,358 over last year, and exceeding by £342 any previous record. Your Committee desire to express their warmest thanks to the public for making this satisfactory result possible. It is strongly felt that no better means exist of helping the blind than by purchasing the goods they make. Consequent upon the ever-increasing number of blind workers the question of finding employment becomes a very serious problem, and your Committee ask most earnestly for increased support in this direction.

The wages and augmentation paid to the blind workers in this department amounted to £4,740, made up as follows:

Wages to Workpeople	...	...	£2,812
Wages to Travellers and others	...	...	435
Augmentation of Wages	..	...	1,493

---

£4,740

These figures show an increase of £703 over any previous year in the history of the Institution.

Your Committee regret that the Trading Account shows a loss of £435 on the year's working. This deficiency is partially accounted for by the fact that the stock of manufactured goods on hand at the end of the year has been valued at prices more nearly approaching prime cost than has been the rule in past years. This re-adjustment was thought to be desirable, and it is proposed that next year the stock shall be valued at actual prime cost.

Another reason which has contributed to the loss is that charges to the extent of £130 really belonging to the Trading Department, have this year been charged to the Trading Account, instead of to the General Account as formerly. Also, as a result of keen competition, selling prices have to some extent had to be reduced. The greatest care and judgment is exercised in dealing with matters of this kind, but while making every effort to provide full employment for the blind workers, it is not always possible to obtain suitable orders at profitable rates.

The number of blind workers employed at the Institution as compared with last year is :—

		<i>Males.</i>	<i>Females.</i>	<i>Total.</i>
Last year	...	84	33	117
This year	...	90	33	123

The whole of the Staff still continues to give your Committee every satisfaction in the execution of their duties. Your Committee have special pleasure in referring to the admirable manner in which Mr. W. H. Thurman, their General Superintendent and Secretary, has discharged his many and difficult duties. His work during the past year has fully justified the opinion they expressed in their last Report that he would prove a worthy successor to Mr. Stainsby.

In conclusion, your Committee trust that the Divine blessing which has helped them in the past may continue to support them in the future, and they take this opportunity of again thanking all who have assisted during the past year, by gifts or personal service, in the arduous work among the Blind.

By Order of the Committee,

ARTHUR L. LOWE, *Chairman.*

G. H. CUMING BUTLER, *Hon. Sec.*

The Committee again wish to  
call attention to the article on  
Ophthalmia at birth by

Dr. PRIESTLEY SMITH,  
and to the statistical Analysis by

Dr. J. JAMESON EVANS,  
of the causes of blindness in the  
pupils of the Institution, on pages  
18, 19 and 48 of this Report.

They earnestly ask subscribers  
to do everything in their power to  
help in stamping out this preventable  
cause of blindness.

The sum of £1000 to be paid to the BIRMINGHAM ROYAL INSTITUTION for the purpose of assisting the Institution:—

I bequeath to the TREASURER (for the time being) of "THE BIRMINGHAM ROYAL INSTITUTION FOR THE BLIND," whose receipt shall be an effectual discharge for the same, the sum of £ free of duty, to be applied to the purposes of that Institution.

NOTE.—Lady, her heirs, and her assigns, shall be deemed to have received the sum of £1000, and shall be charged with the payment of the same, whether such sum shall be paid upon mortgages, or upon whatever property secured.
